

## ACTIVITIES

### ONGOING EVENTS

Every year the Friends of Union County Library purchase books, magazines, and supplies for the library, help fund the summer reading program for children, support Ferst Foundation (a nonprofit children's literacy program which provides free monthly books to registered children from birth to age 5), provide BookPage to library patrons (a publication dedicated to helping readers of all ages find their next great read by highlighting the best new books across all genres), and purchase and present small gifts of appreciation to Union County Public Library's Branch Manager and the library staff.
